Fitch Argentina: Acciones de Calificación Resumen Semanal de acciones de calificación del 30 de mayo al 3 de junio de 2011 >LatAm Weekly: Panama Upgraded to 'BBB'; Rapid Credit Growth Confined to Emerging Markets -Featured Rating Action: Fitch Upgrades Panama's Ratings to 'BBB'; Outlook Revised to Stable Fitch Ratings upgraded Panama to 'BBB' from 'BBB-' to reflect the country's solid economic growth prospects and favorable government debt dynamics. Panama's highly favorable investment cycle is underpinned by the Canal expansion, an ambitious investment program and strong foreign direct investment flows. Favorable economic growth combined with continued fiscal discipline has allowed for a sustained decline in government indebtedness, with debt to GDP of 43% nearly converging with the 'BBB' median. Growth surprised on the upside in 2010 at 7.5% and Fitch Ratings projects a robust 7% expansion in 2011 and 2012. Panama's ratings are also supported by the country's stable banking system, political stability and the consensus among political parties on the main thrust of macroeconomic policies. The country's demonstrated resilience to external shocks is also noteworthy. -Featured Special Reports: EM Bank Datawatch and Macro Prudential Risk Monitor According to Fitch Ratings' EM Bank Datawatch report, managing and reducing credit growth remains a key focus for banks and regulators in several major emerging markets (EMs) globally. Rapid growth continued in H210-Q111 in many EMs, notably in China, Turkey, India, Brazil and Argentina. Regulators are seeking to moderate this growth in part by using reserve requirements and other regulatory measures, given concerns about the potential impact of interest rate hikes on capital flows and exchange rates. In Fitch Ratings' view, the risks from credit growth are particularly strong in China, due to the high level of credit/GDP, weaknesses in loan underwriting, and tight capital ratios. Risks in other countries continue to be mitigated by still low (in Argentina, Armenia, Colombia, Georgia, Indonesia, Peru and Venezuela) or moderate (in Brazil, India, Qatar, Thailand and Turkey) credit/GDP ratios, mostly healthy lending margins, and solid or high economic growth (with the exception of Venezuela). Capitalization of these systems is generally adequate (although tighter in Venezuela, Colombia and India), and loan/deposits ratios are mostly below 100% (albeit higher in Brazil). According to Fitch Ratings Macroprudential Risk Monitor, rapid credit growth is confined to specific emerging markets, as global real lending growth remains subdued at around 3% to 4% - well below a pace that would cause renewed concerns about overstretched banking systems. -Other Reports/Comments: Recovery Ratings Model - EMEA and Asia-Pacific Hungarian FX Mortgage Measures: Playing for Time Fitch Launches Analytical Tools for EMEA and Asia-Pacific Corporates Fitch Solutions: Greece and Portugal Lead Global CDS Sell-Off Fitch:Russian Wheat Export Quotas Elimination Unlikely to Ease Agriculture Commodity Price Inflation -Upcoming Events Fitch to Host Global Banking Conferences in Nine Cities in June >Rating Actions -Argentina Fitch califica al FF Megabono 70; Perspectiva Estable Fitch retira AA(arg) a VDFB de Banco Provincia Personales I Fitch retira AA(arg) de los VDFA de Consubono XLIII Fitch retira AAA(arg) de los VDFA de Cuencred XII Fitch retira BBB+(arg) de los VDFA de Fidebica X Fitch retira A(arg) de los VDFB de Fidebica XI Fitch retira CC(arg) de los CP de Lucaioli IV Fitch confirma en A+(arg) el Programa de Viviendas de La Rioja; PE Fitch retira AAA(arg) de los VRD del FF Ribeiro Serie XXXIX Fitch asigna AAA(arg) a ONs Serie V de YPF Fitch retira CCC(arg) de los CP de Consubond LV Fitch retira calificaciones de VDFA y CP del FF CGM Leasing IX Fitch retira CCC(arg) de los CP de Consubond LVII Fitch retira CCC(arg) de los CP de Consubond LVI Fitch sube a A+(arg) a la Municipalidad de La Plata, PE Fitch califica al fideicomiso financiero CMR Falabella XXVII Fitch sube la calificación de VRD I de Municipalidad Rio Cuarto Fitch sube a A-(arg) los Títulos 2026 del Chaco, PE Fitch confirma las ONs de SAIEP en AA-(arg) y las acciones en 1 Fitch califica Fideicomiso Financiero ATAM III -Brazil Fitch Atribui Rating A+(bra) a Serie 2011-226 de CRIs da Brazilian Securities Fitch: Aquisicao Parcial de Ativos da Abengoa Pela Taesa
